

OFFER N°:
1406

DATE:
17/04/17

FOR:
HATCHERIES
RESEARCH CENTERS

ISO CERTIFICATION: 9001:2008 N° CA-1.061. ACCREDITED LABORATORY N° 046/GA/SA680A

PRODUCT: ARTEMIA CYSTS

DESCRIPTION:

Selected Artemia salina cysts harvested from highly productive, contaminant-free environments. The reduced size of hatching nauplii (instar 1), as well as their high $\Omega 3$ and $\Omega 6$ content and good essential amino acids profile, make it an ideal food for aquaria, aquariology, fresh or saltwater fish larvae and crustaceans. The combination of nauplii with concentrated microalgae (Technical Sheets N°. 472-476) ensures the complete nutrition of the cultivar, resulting in optimum growth and vitality of the crop.

10% DISCOUNT FROM REGULAR PRICE

OFFER DATE AND VALIDITY: Spring/Summer 2017

DELIVERY: 8 working days from order confirmation.

PAYMENT: To be convened.

ADDITIONAL INFORMATION: Quotation excludes delivery and VAT charges. Please contact our Commercial Address at ventas@acuinuga.com for further details.
