ISO CERTIFICATION: 9001:2008 N° CA-1.061. ACCREDITED LABORATORY N° 046/GA/SA680A

PRODUCT: MICROALGAE MIX

DESCRIPTION:

Microalgae mix including **marine microalgae**, suitable for the nourishment of most bivalve molluscs and crustaceans. Provides a broad particle size range (2-30 µm), ensuring an **optimal nutritional profile** and increasing **growth** rates and **survival**. One liter of this diet can replace up to 1800 liters of high density microalgae culture. Produced and packed in sterile conditions, it ensures a complete nutrition, enhancing growth and the vitality of the cultivar. Allows for the **reduction** in **operational costs** by diminishing on-site microalgae production requirements, and makes year-round larval production feasible.

TECHNICAL PROFILE:

Nutritional parameters							
Protein	Carbohydrates	Lipids	EPA	ARA	Vitamin C	Chlorophyll A	Cell density
45%	22%	14%	16%	10%	0,50%	0,83%	2.000x10 ⁶ /mL

DESTINATION AND USAGE RECOMENDATIONS:

Formulated on the basis of inclusion of the following species : *Isochrysis spp.*, *Tetraselmis spp.*, *Nannochloropsis spp.*, *Thalassiosira spp.*, *Pavlova spp.*

OFFER 10% DISCOUNT:

* prices exclude taxes and delivery costs

OFFER DATE AND VALIDITY: March 8th, 2018 / 45 days.

DELIVERY: 5 working days from date of order.

PAYMENT TERMS: To be convened.

ADDITIONAL INFORMATION: Quotation excludes delivery costs and V.A.T. charges. Please contact our Commercial Office at ventas@acuinuga.com for further details.
