

**OFFER N°:**  
**1454**

**DATE:**  
23/03/18

**FOR:**  
HATCHERIES  
RESEARCH CENTERS

ISO CERTIFICATION: 9001:2008 N° CA-1.061. ACCREDITED LABORATORY N° 046/GA/SA680A

**PRODUCT: ARTEMIA CYSTS**

**DESCRIPTION:**

Selected Artemia salina cysts harvested from highly productive, contaminant-free environments. The reduced size of hatching nauplii (instar 1), as well as their high  $\Omega 3$  and  $\Omega 6$  content and good essential amino acids profile, make it an ideal food for aquaria, aquariology, fresh or saltwater fish larvae and crustaceans. The combination of nauplii with concentrated microalgae (Technical Sheets N°. 472-476) ensures the complete nutrition of the cultivar, resulting in optimum growth and vitality of the crop.

**10% DISCOUNT FROM REGULAR PRICE**

**OFFER DATE AND VALIDITY:** March 23<sup>th</sup> 2018/30 days

**DELIVERY:** 8 working days from order confirmation.

**PAYMENT:** To be convened.
