OFFER Nº:

1853

DATE:

05/11/2026

FOR:

HATCHERIES
RESEARCH CENTERS
AQUARIA & ZOOS
AQUACULTURE FACILITIES
REPRO & BROODSTOCK HUSBANDRY

ISO CERTIFICATION: 9001:2015 Nº CA-1.092. ACCREDITED LABORATORY Nº 046/GA/SA680A

PRODUCT: ARTEMIA ARAL CYSTS

DESCRIPTION:

Selected *Artemia salina* cysts harvested from highly productive, contaminant-free environments within the Aral Sea. The reduced size of hatching nauplii (instar 1), as well as their high Ω3 and Ω6 content and good essential amino acids profile, make it an ideal food for aquaria, aquariology, fresh or saltwater fish larvae and crustaceans. The combination of nauplii with concentrated microalgae (Technical Sheets Nº. 472-476) ensures the complete nutrition of the cultivar, resulting in optimum growth and vitality of the crop.

10% DISCOUNT FROM REGULAR PRICE

OFFER DATE AND VALIDITY: 5th November 2026 /30 days

DELIVERY: 8 working days from order confirmation.

PAYMENT: To be convened.

ADDITIONAL INFORMATION: Quotation excludes delivery and VAT charges. Please contact our Commercial Address at ventas@acuinuga.com for further details.
