## PRODUCT

# AUTOMATIC BELT FEEDERS

## DESCRIPTION

Automatic Feeders specifically designed for Aquaculture operations, with holding capacity of up to 5 kg of feed. Built in extruded plastic for **maximum robustness**, including **anti-corrosion** protection in internal components and timer. Watertight casing for feed protection. Wide loading belt allows **feed refilling with great ease**, ensuring the **homogeneous distribution of the ration** over the 24-hour cycle controlled by the timer. Continuous food supply is of particular relevance in hatchery/nursery applications.

## TECHNICAL PROFILE

Four-wheel driven timer for maximum accuracy. Programmable 24-hour cycle. Plastic cover with lateral opening and rubber sealing ensuring water tightness. Feeder is delivered fully assembled and ready for use. Readily available, easily replaced spare parts.

## REFERENCE PRICE\*

79 to 285 € depending on configuration

\*Quotation excludes taxes and delivery costs
